

## WLC Changeroom Refurbishment December 2017 through to February 2018

Commencing December 2017, Willoughby Leisure Centre will be undertaking a **total redevelopment of all changerooms**; including upper and lower female, male and family areas. At this time, we request your patience and understanding of the works required to upgrade our facilities.

### Project details

The redevelopment will start from early December and it is anticipated that all change rooms will be closed for a period of eight weeks while the works take place.

<b>Monday 11 December 2017 – Thursday 14 December</b>	Small car park closed for works. Noise associated with drilling works expected.
<b>Wednesday 13 December 2017 – Friday 15 December</b>	Sections of the main car park closed for works. Noise associated with drilling works expected.
<b>Thursday 14 December 2017</b>	Works begin and demountable services installed.
<b>Monday 18 December – Friday 29 December 2017</b>	Significant works underway, old changerrooms closed and demountables available. Noise, dust, rubbish removal expected.
<b>Tuesday 2 January – Sunday 31 January 2018</b>	Construction, tiling and fit out underway.
<b>Friday 10 February 2018</b>	Current anticipated completion, subject to change pending delays.

### Minimal changes

Plans and alternative arrangements have been made to reduce disruption to our services and facilities. Demountable service change rooms and toilets will be available while the work is in progress. **Please note** there will be significantly reduced availability of change and toilet facilities. During this period we request and encourage those patrons that live close by to consider planning their visits to allow for showers and changing at home.

### Accessible Change Rooms

A temporary accessible toilet facility will be made available in the current location.

### Noise

We will be liaising with contractors to ensure minimal impact to members, patrons, visitors, guests and casual users. Noise levels are likely to be highest in the demolition period from Monday 18 to Friday 29 December.

### Impact on classes and programs

The biggest disruption will be the noise from the demolition of the existing change rooms. The works will not affect the running of group fitness classes. However, the noise of the jackhammering may cause some discomfort to members, pass holders and casual users.

**Time Stop:** all members can access the *time stop service*. There will be no fee charged for a time stop request during our refurbishment period. Please enquire at the Customer Service desk.

### A small inconvenience for a big reward

We apologize in advance for any inconvenience the works may cause, but we look forward to providing new and improved facilities upon completion.

### Support - Ask if you have a question or require assistance

All staff will be on hand during the renovations to assist and advise on any changes and answer any concerns or questions. All members pass holders and casual users will be kept up to date with the stages and progress of the redevelopment. Please direct any questions or concerns to the staff on duty in person or via email at [leisure@willoughbyleisure.com.au](mailto:leisure@willoughbyleisure.com.au)
