

# Bushcare Refresher Course 2018

Can you explain:

- non-herbicide weed removal strategies that can be utilized in bush regen?
- when we should plant and definitely not plant on our sites?
- what native fauna you could expect to find on your bushcare site?
- when we should use fire/ not use fire?
- when we should use mulch/ not use mulch?
- the difference between a brown and a golden crown snake?

If not, if you're feeling a bit rusty, or would like to share what you've learnt in Bushcare over the years, you should book into the Bushcare Refresher Course.

**Thursday 19th April**  
**6pm - 9pm**

**Bookings are Essential**

**More information/Bookings**
