

WLC Changeroom Refurbishment December 2017 to February 2018

We advise patrons and visitors that a **total redevelopment of all changerrooms-** including upper and lower female, male and family areas - is currently in progress. We apologize in advance for any inconvenience the works may cause, but we look forward to providing new and improved facilities upon completion.

It is anticipated that all change rooms will be closed for a period of eight to twelve weeks while the works take place.

Minimal changes

Alternative arrangements have been made to reduce disruption to our services and facilities. Demountable service change rooms and toilets are available while the work is in progress.

Please note there is significantly reduced availability to change and toilet facilities.

During the building works we request patrons who live close by to consider to allow for showers and changing at home.

Project details:

Tuesday 2 January – 31 January 2017

Construction and building of the new bathrooms, toilets and changerrooms including tiling, fit out and finishing .

End February 2018

Anticipated completion of the new facilities.

If there are any delays we may require an additional time to complete the construction.

The Centre will advise all patrons if this situation eventuates.

Accessible Change Rooms

Only one temporary accessible toilet facility is available in the courtyard. Unfortunately there is no accessible shower facilities available..

Noise

Demolition has now been completed . Please note there may be some incidental noise occurring due to the construction work during January and February.

We are liaising with the contractors to ensure minimal impact to members, patrons, visitors, guests and casual users.

Impact on classes and programs

The works will not affect the running of group fitness classes. However due to restricted access ways in the Centre there will be alternative pathways for some GF classes. Please check at the Customer Service Desk

Time Stop: NO FEE charged for Time Stops/Membership on hold.

During the refurbishment period members can access the *time stop service with no charge*. Enquire at the Customer Service desk to obtain a *Time Stop Form*.

Support - Ask if you have a question or require assistance

All staff will be on hand during the renovations to assist and advise on any changes and answer any concerns or questions.

All members pass holders and casual users can find up-to-date details, stages and progress of the redevelopment on our website – www.willoughbyleisure.com.au.

Please direct any questions or concerns to the staff on duty in person or via email at leisure@willoughbyleisure.com.au
